

**United We Age** is a 501(C)(3) non-profit organization established to serve the senior citizen population. It is a volunteer-driven organization based in Florida.

Our goals and objectives are to:

Assure that every person experiencing quality of life decline due to aging has a social support network, especially people living alone.

Assure that age is not a barrier to seniors participating in the online (internet) world.

Raise awareness and image building for senior citizens.

## Stay In Touch<sup>©</sup>

One of the greatest challenges for older adults is to make use of new technologies that facilitate communication and information gathering. Having access to the internet changes lives for the better

Whether its better communication with family and friends, online games, online groups specific to their community, or easier bill paying and banking, technology is becoming a part of all of our lives.

Unfortunately, many older people facing financial, health or social challenges, have little access to the internet. To bridge this technology gap, United We Age has an initiative-- *Stay in Touch*<sup>©</sup>.

The *Stay in Touch*<sup>©</sup> program offers voice-activated technology devices and initial set up/installation and ongoing guidance from volunteers, featuring Amazon's Echo Show<sup>™</sup> device, to the senior population residing in the United States.

Our program creates an opportunity for seniors to be in contact with family and friends with voice activation and video interface. *Stay in Touch*<sup>©</sup> offers seniors a unique way to embrace internet technology daily to reach out and explore what the world has to offer them.

Our *Stay in Touch*<sup>©</sup> program utilizes the Alexa<sup>™</sup> Amazon cloud-based voice service available on millions of devices from Amazon. Echo Show devices are offered at no cost to seniors in need, and at a UWA quantify discounted price to financially able seniors.
